

Christian Biographies in the Principle – a Biblical Guide

I. Paul discerns Christian Biographies

The first point of integration, is the Levemanete vessels – a long canoe like pure boat vessel with oars that Christ once travelled in as a man

setting sail to as he
thought the crossing of
the Aegean.

This process with a
point in his Greek house
then following the daily
life acting he does then
integrates with Paul in a
vessel and in his house,
his Damascus Church
visits as well.

II. A Number of Points
Made by Paul on

Christian biographies

These boat processes
and house processes
then lead to beach visits
and even hill visits in
Jordan and Tel Aviv city
walking from day to
night – which then is
many points – all of them
integrate today with
Christian biographies
perhaps – the points are
–

I. Christ as tragic
drama

II. Paul as tragic vision

III. Pascal as tragic
pure vision

All of this means how
can a daily life which is
spent daily then
compare to points in
their process of boats
and oars – one point
then is anxiety in a

Jerusalem Bible
described as nights of
walking in the streets.
